Overall, the TA did a good job in this course	64	59%	29	27%	12	11%	2	2%	1	1%	4.4	0.8	5.0	108

Evaluate only the TA (s) with whom you attended discussion section and/or office hours.

Rebecca Brough
I didn't attend discussions or office hours.
The TA is very responsible and helpful.
You teach just as fast as the professor and I didn’t find that useful.
she helped us enhance the content we read
Rebecca Brough is an amazing TA. I did a lot of the actual learning and understanding of the course during the discussions. It was the time I was able to prove to myself I can understand the material and answer the questions she was asking.
Rebecca is an amazing TA. Perfectly explains all the material and always ready to help with any questions.
She’s really patient with us and went over all the topic really nicely.
Great
Very good notes and lectures for students, makes lectures easy to understand.
She helped me understand the course materials, I especially find the notes and slides she provided very helpful.
Rebecca Brough
The time of discussion is too late.
She is very patient with the student and explain everything
Great TA!
Both
Rebecca was prepared for section and responsive to emails
She is honest and friendly. She deserves the best rating.
Rebecca was a great help this quarter and the few discussion sections she held provided great practice to students. Although Rebecca was always willing to answer questions during lectures or office hours, emails would sometimes take several days to get a response. Asides from that, Rebecca made sure that students understood how to complete assignments like the empirical project by uploading examples. Thank you for a great quarter, Rebecca!

Please provide additional information and/or elaborate on any aspect of your evaluation. These comments are often the most valuable part of your evaluation. Every comment will be read!

Thank you!
Discussions were helpful and supplemental to reinforcing what we learned in class. TA was helpful in answering any questions I had. I never went to office hours so I can't say how that was.
I think sometimes many of us would look confused in the discussion sections when you asked us questions because the questions were worded in a weird way or you would mention a concept by a different name. It would be confusing to follow along and answer your question because we were not sure exactly why you were asking.

Sections were very helpful with course material. Becca encouraged questions and participation. She was very timely with exam grading especially considering exams were free response. All her sections were organized and directly relevant to what was expected of students each week in upcoming assignments.
I didn't attend discussions or office hours.
none.
The way section was utilized was set at a good pace and covered relevant material that made it worth attending. It wasn't too slow or fast to follow along which is I've had issues with in other classes
I think you speed through material way too much.
Overall, you can do great on this class as long as you are willing to spend time on it
I absolutely loved the time in Discussion. I attended every week even though it was optional and attendance was low. Wednesdays were my hardest days this quarter, but I still managed to get to the discussions for Econ from 5:10-6pm.
Great
I think the TA did a great job teaching professor rapsons lectures.
The time of discussion is too late.
N/A
Great! Loved everything!
I feel that the discussion sections could have been used for practicing the concepts in lecture along with going over the labs.
I didn't attend any of her discussions. I watched one pre-recorded one and she seemed good at explaining the material and accommodating students with questions but her mic was garbage.
Well done.
She is honest and friendly. She deserves the best rating.
I expected ECN 140 to be the most difficult class of all time after what I heard before enrolling in this class. While the class is difficult, Professor Shu's teaching style made the material comprehensible and her exams were fair. The TA's provided a great help all quarter. Thank you, Professor Shu, Cassie, and Rebecca!
